

Waste sorting

Do you already separate your waste on campus? Waste is collected in separate containers. So throw your waste in the right bin! By separating waste, we can reuse more materials. Good for the environment and for our future! Read on this flyer how to sort different types of waste.

Residual Waste

As a tenant of De Veste, you can dispose your residual waste in our underground containers on campus. Residual waste is waste that you cannot dispose separately. To use these containers, you have received a keytag from De Veste. Hold the keytag against the green area on the right of the container and the container will open automatically. Please do not place any waste next to the containers. The containers are emptied twice a week, on Tuesdays and Fridays. If the container is full, please contact us: enschede@veste.nl. We will ensure that the containers are emptied as soon as possible.

Lost your keytag?

The keytags are the property of De Veste. Have you lost your keytag? Contact De Veste office to receive a new keytag. The costs are 10 euros.

Residual Waste

What?

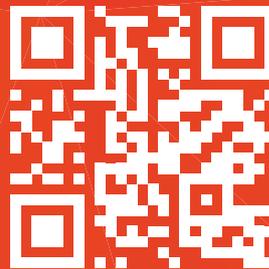

Pens and pencils
